

EVGA Announces Immediate Worldwide Availability of the e-GeForce 7800 GTX – 512MB Version

Brea, California and Munich, Germany - November 14, 2005 — EVGA Corporation, the leading edge 3D processor board brand of the United States of America with it's newly expanded European office EVGA GmbH located in Germany, is pleased to announce the e-GeForce 7800 GTX 512MB PCI-Express Graphics card. This newest addition to the powerful GeForce 7 Family of NVIDIA® technology-based graphics cards raises the bar in gaming performance, that is immediately available through a broad network of leading Etailers, systems integrators, OEM system manufacturers.

The e-GeForce 7800 GTX 512MB with its 550MHz Core, 1.7GHz Memory clock, 24 Shader Pipes and 1.1ns 256-bit memory interface, simply blows away the competition at high resolutions. With added features like:

- Next Generation superscalar GPU architecture
- NVIDIA® SLI™ technology
- New NVIDIA® CineFX™ 4.0 engine
- New NVIDIA® Intellisample 4.0 technology
- NVIDIA® PureVideo™ technology
- NVIDIA® ForceWare™ graphics driver
- Proven Microsoft® DirectX 9.0 Shader Model 3.0 technology
- NVIDIA® UltraShadow™ II technology
- High Dynamic-Range (HDR) Rendering
- NVIDIA® nView® multi-display technology
- Integrated HDTV encoder

Raising the bar for performance, visual effects, image quality, and video functionality, the e-GeForce 7800 GTX 512MB will power the ultimate PC experience. No longer do you have to choose between blazing frame rates and the highest image quality with today's latest games and the games of tomorrow. But the power within the e-GeForce 7800 GTX 512MB doesn't stop there, EVGA further enhances the value of this card with the inclusion of a few unique distinctions. EVGA Genuine Spec (EGS) certifies that these cards are manufactured accurately and designed to meet NVIDIA's original specification and built with the very best materials and components. As with all EVGA cards, the Step-Up™ Program can also be applied, giving users a great way to upgrade and keep their rig at the cutting edge of graphics card technology. Along with superior customer service and Warranty, EVGA aims to provide for the gaming enthusiast an experience of graphics card ownership unmatched in the hardware industry.

About EVGA

Founded in 1999, EVGA has grown exponentially in the channel, serving the system builder, distribution and retail markets with products that offer the highest in quality and customer satisfaction, thereby making the computer experience transparent to the hardware in the box. EVGA only offers visual processing products based on NVIDIA chipsets and in year 2005 expanded its product line to include motherboards.
