EVGA Announces the EVGA GTX 560 Ti!

January 25, 2011 - Tuesday, January 25, 2011 □
Polished Performance
Introducing the latest in high performance graphics accelerators, the EVGA GeForce GTX 560 Ti. This card allows you to discover incredibly detailed DirectX 11 worlds with tessellation performance that destroys the competition. Not to mention it also offers general performance increases of over 3x that of previous generations*. It isnt just all about speed though, the EVGA GeForce GTX 560 Ti gives you NVIDIA Surround, 3D Vision, PhysX, SLI and more.

New and Key features introduced on the EVGA GTX 560 Ti:

* 384 CUDA Cores
* 1024MB GDDR5 Memory at 4GHz
* NVIDIA Surround Technology
* NVIDIA PhysX Technology
* Award Winning EVGA Support/Utilities/Community

About EVGA

Founded in 1999, EVGA has grown exponentially in the channel, serving the system builder, distribution and retail markets with products that offer the highest in quality and customer satisfaction, thereby making the computing experience transparent to the hardware in the box. EVGA only offers visual processing products based on NVIDIA chipsets and in year 2005 expanded its product line to include motherboards.
