

EVGA Announces the EVGA GTX 460SE!**November 15, 2010 - Monday, November 15, 2010** □

Next Generation Gaming now More Affordable than Ever!

The EVGA GeForce GTX 460 brought a true DirectX 11 solution to the masses, with up to 4x the DirectX 11 tessellation performance of the competition*, NVIDIA 3D Vision, Surround Gaming, PhysX and CUDA technologies. Now EVGA is further extending this great solution with an even better value in the EVGA GTX 460SE!

Featuring 288 CUDA Cores, 1024MB of GDDR5 memory, and blistering fast DirectX 11 tessellation performance, the EVGA GTX 460 XM is the perfect solution for the gamer who wants maximum immersion, with minimum investment.

New and Key features introduced on the EVGA GTX 460SE:

- * 288 CUDA Cores
- * 1024MB GDDR5 Memory
- * DirectX 11 Support Done Right
- * NVIDIA 3D Vision Surround
- * NVIDIA PhysX Technology
- * NVIDIA CUDA Technology
- * Award Winning EVGA Support/Utilities/Community

About EVGA

Founded in 1999, EVGA has grown exponentially in the channel, serving the system builder, distribution and retail markets with products that offer the highest in quality and customer satisfaction, thereby making the computing experience transparent to the hardware in the box. EVGA only offers visual processing products based on NVIDIA chipsets and in year 2005 expanded its product line to include motherboards.
