Introducing the EVGA GTX 560 Ti 448 Cores FTW and Classified!

- Tuesday, November 29, 2011 ☐
Experience gaming nirvana with the EVGA GTX 560 Ti 448 Cores. EVGA has boosted this card to 448 Processing Cores, upgraded the memory to 1.2GB and added full support for NVIDIA 3-Way SLI, making an excellent card even better. This new card from EVGA offers better performance, better features and a better warranty than competitors!
Also, EVGA also has a Classified edition available. This card features an upgraded 6 Phase PWM, Dual Fan design, and 8+6pin power inputs bringing extreme over clocking performance!
Now is the perfect time to upgrade for the latest generation of PC Game titles like Battlefield 3, The Elder Scrolls V: Skyrim and Batman: Arkham City!

About EVGA

Founded in 1999, EVGA has grown exponentially in the channel, serving the system builder, distribution and retail markets with products that offer the highest in quality and customer satisfaction, thereby making the computing experience transparent to the hardware in the box. EVGA only offers visual processing products based on NVIDIA chipsets and in year 2005 expanded its product line to include motherboards.
