

Introducing EVGA PRO SLI BRIDGES V2 – Elegant Performance

- Thursday, April 9, 2015 □

EVGA has amped up the bling with the EVGA PRO SLI BRIDGE V2. These redesigned bridges come with several improvements over the previous generation SLI bridges. Not only do these new bridges light up and look great on select graphics cards, they also have a high quality aluminium shroud and are optimised for the next generation display resolution and refresh rates, with a high pixel clock frequency design that gives best performance for 120Hz+ and 4K+ gaming!

Next Generation Features:

- Separate models to support 2-Way (Short), 2-Way (Standard), 3-Way SLI, or 4-Way SLI.
- High pixel clock design optimised for 4K+ and 120Hz+ gaming.
- EVGA logo illuminates on select GeForce GTX graphics cards.
- Compatible with all SLI enabled graphics cards.
- Looks super awesome!

Compatibility:

SLI functionality works on all SLI enabled graphics cards. LED functionality works on the following cards:

- All EVGA GTX TITAN graphics cards.
- All EVGA GTX 980 graphics cards.
- Select EVGA GTX 970 graphics cards.
- All EVGA GTX 960 graphics cards.
- All EVGA GTX 780/780 Ti graphics cards.
- Select EVGA GTX 770 graphics cards.

About EVGA

Founded in 1999, EVGA has grown exponentially in the channel, serving the system builder, distribution and retail markets with products that offer the highest in quality and customer satisfaction, thereby making the computing experience transparent to the hardware in the box. EVGA only offers visual processing products based on NVIDIA chipsets and in year 2005 expanded its product line to include motherboards.
