

Introducing the EVGA GeForce GTX TITAN Z

- Wednesday, May 28, 2014 □

Introducing the EVGA GeForce GTX TITAN Z. This card is a gaming monster – built to power the most extreme gaming rigs on the planet. With a massive 5760 cores, 12GB of 7 Gbps GDDR5 memory, and the most advanced power delivery system, GTX TITAN Z offers truly insane performance. It's easily the fastest graphics card we've ever made.

GTX TITAN Z is designed with the highest-grade components to deliver the best experience – incredible speed and cool, quiet performance – all in a stunningly crafted aluminium case.

The groundbreaking dual-GPU GTX TITAN Z uses new dynamic power balancing technology that ensures peak performance across two GPUs with optimal power delivery. This means you can game on multi-monitor displays and hyper PCs at high settings and super-fast frame rates. With support for NVIDIA SLI®, you can even add a second card and immerse yourself in graphically intense games such as Watch_Dogs® in full 4K Surround.

Specifications

- Dual-GPU Processing Cores
- 5760 CUDA Cores
- Quad SLI Ready
- 12,288MB GDDR5 Memory
- 672 GB/s Memory Bandwidth

Additionally, EVGA will be offering an exclusive version with next generation EVGA Hydro Copper watercooling!

Next Generation Hydro Copper Watercooler

- Full Cover Design – End to End
- High Flow Design
- Microchannels Improve Heat Transfer
- Nickel Plated Electrolytic Copper
- G1/4" Threaded Fittings on Each Side
- Directly Cools GPUs, Memory and VRM

EVGA's recent annual awards wins for its graphics cards technology, design, and customer support:
Winner of the Hardwareluxx Awards 2013 for Best Manufacturer of the Year: Graphics Cards (January 2014).
Winner of the Hardware.Info UK Award 2013 for Best NVIDIA-based Graphics Cards Brand (December 2013).
Winner of the PC Pro Excellence Award 2013 in the Graphics Card category (September 2013).
Winner of the Custom PC & Bit-tech Award 2013 for Best NVIDIA Graphics Card Manufacturer (May 2013).

About EVGA

Founded in 1999, EVGA has grown exponentially in the channel, serving the system builder, distribution and retail markets with products that offer the highest in quality and customer satisfaction, thereby making the computing experience transparent to the hardware in the box. EVGA only offers visual processing products based on NVIDIA chipsets and in year 2005 expanded its product line to include motherboards.
