EVGA Announces the SuperNOVA 1300 G2 Power Supply

- Tuesday, June 18, 2013 □

The EVGA SuperNOVA 1300 G2 power supply is here. This power supply raises the bar with an 80 Plus Gold rating, with 1300W of continuous power, exceptional efficiency and a fully modular design. Not to mention, a first class 10 Year EVGA Warranty. The entire electrical design was engineered to be efficient, silent and optimized for the enthusiast. Take your system to the max with the EVGA SuperNOVA 1300 G2.

Key Features:
• Exceptional 10 Year Warranty and unparalleled EVGA Customer Support
• 80Plus Gold Rating Pending, with up to 90% efficiency under typical loads
• Single +12V rail delivers up to 108.3A
• Superior vertical double layer main transformer increases power output
• Fully Modular design reduces cable clutter
• Highest Quality Japanese Solid State Capacitors
• Quiet 14CM Double Ball Bearing Fan

About EVGA

Founded in 1999, EVGA has grown exponentially in the channel, serving the system builder, distribution and retail markets with products that offer the highest in quality and customer satisfaction, thereby making the computing experience transparent to the hardware in the box. EVGA only offers visual processing products based on NVIDIA chipsets and in year 2005 expanded its product line to include motherboards.
