

EVGA SuperNOVA 850, 750 and 650 P2 Power Supplies – Platinum Performance**- Wednesday, June 24, 2015** □

The unbeatable performance of the EVGA SuperNOVA P2 power supply line is now available in 850, 750, and 650 watt versions. Based on the award-winning P2 power supplies, these units feature 80 Plus Platinum rated efficiency, and clean, continuous power to every component. The ECO Control Fan system offers fan modes to provide absolutely zero fan noise during low to medium load operations. Backed by an award-winning 10 year warranty, and 100% Japanese capacitor design, the EVGA SuperNOVA 850, 750, and 650 P2 power supplies offer unbeatable performance at an unbeatable value.

- 80 PLUS Platinum certified, with 92% (115VAC) / 94% (220VAC~240VAC) efficiency or higher under typical loads
- Unbeatable 10 Year Warranty and unparalleled EVGA Customer Support
- Highest quality Japanese brand capacitors ensure long-term reliability
- Fully Modular to reduce clutter and improve airflow
- NVIDIA SLI and AMD Crossfire Ready
- Double Ball Bearing fan for exceptional reliability and quiet operation
- Heavy-duty protections, including OVP (Over Voltage Protection), UVP (Under Voltage Protection), OCP (Over Current Protection), OPP (Over Power Protection), and SCP (Short Circuit Protection)

About EVGA

Founded in 1999, EVGA has grown exponentially in the channel, serving the system builder, distribution and retail markets with products that offer the highest in quality and customer satisfaction, thereby making the computing experience transparent to the hardware in the box. EVGA only offers visual processing products based on NVIDIA chipsets and in year 2005 expanded its product line to include motherboards.
